

## SAPHYGATE G

Smart radiation portal monitor for  
vehicle & load control

SAPHYMO

The image shows a white, rectangular radiation portal monitor mounted on a white pedestal. The word "SAPHYMO" is printed in black on the front panel, with a small antenna symbol to its right. The monitor has two black handles on the right side and a small control panel with a dial. In the background, there is a white truck with a green trailer parked in a container yard with stacks of colorful shipping containers (red, orange, blue, green) under a clear blue sky.

- Accurate detection & adaptive alarm threshold
- Very low false alarm rate
- Fully automatic & remote support
- Suitable for steel & recycling industry, nuclear sites, hospital waste management, safety & border control
