

CPD Digital Truck Scales.

nwigroup.com.au

**World-class precision,
locally delivered.**

Truck scales have become more durable and resilient over time. Most scales are constructed to last. But as the scale industry improved structure and design, something was missing: keeping up with advancing technology.

NWI Group harnesses the power of advanced technology through fully digital components, live monitoring systems and cloud-based software, bringing you the smartest, most advanced truck scales on the market. CPD Digital, powered by Bilancai Nexia™, takes weighing to the next level.

WHERE BRAIN MEETS BRAWN

When combining NWI Group industry-leading and long-lasting truck scale design with patented digital load cell and indicator technology from Bilancai Group, and powering the system with live-monitoring software, you have the smartest scale system on the market.

CPD Digital scales empower you with valuable data that can be utilized to realize efficiencies within weighing processes and procedures.

DATA

CPD-M Digital load cells house a nexus of information, allowing for continuous monitoring of temperature, voltage, inclination and many other variables sent directly to the cloud.

ACCURACY

Deliver optimized weighing results in less than a hundredth of a second and at small increment measurements - twice the precision of analog scales.

MONITORING

The core of CPD Digital is Nexia, NWI Group live monitoring software. Nexia analyzes data and reports information into trends and scale performance, providing better insight into your scales

ACCESS

With portal access from anywhere, you can rely on CPD Digital information to be there when you need it most.

SMARTEST SCALE IN THE WORLD

MAXIMIZE UPTIME

SERVICE ALERTS

Automated preventative maintenance service alerts notify you before a problem occurs.

ENVIRONMENTALLY SOUND

Hermetically sealed stainless steel construction protects your electronics through harsh environmental conditions.

TEMPERATURE COMPENSATION

Instantly compensate for fluctuation in temperature.

LIGHTNING PROTECTION

Guaranteed protection with components specifically designed to survive lightning strikes.

IMPROVE YOUR BUSINESS

In a world where technology is constantly advancing and your scale doubles as a cash register, CPD Digital technology, powered by Bilanciai Nexia, empowers you with the smartest truck scales. To learn more about how CPD Digital scales can improve your business, contact your local NWI Group representative.

MINIMIZE DOWNTIME

DUAL CALIBRATION STORAGE

Indicator and load cell backup storage eliminates the need for full recalibration after servicing.

INDEPENDENT LOAD CELL CONFIGURATION

Pinpoint errors with accuracy down each individual load cell.

SERVICE ALERTS

Automated service alerts notify you when a problem occurs

ERROR INFORMATION

Service providers are armed with the information they need to show up prepared with the proper parts and tools.

TROUBLESHOOTING GUIDANCE

Enables faster repair times with suggested fixes derived from years of experience and thousands of repairs.
